HTML Exercises (Week 4)

Create a Web page (HTML file) with the following content:

1. Print your name in green.
2. Print the numbers 1 - 10, each number being a different colour.
3. Prints your name in a Tahoma font.
4. Print a paragraph with 4 - 5 sentences. Each sentence should be a different font.
5. Print a paragraph that is a description of a book, include the title of the book as well as its author. Names and titles should be underlined, adjectives should be italicized and bolded.
6. Print your name to the screen with every letter being a different heading size.

HTML Exercises (Week 5)

1. Create some links to various search engines (google, yahoo, altavista, lycos, etc).
2. Create links to five different pages on five different websites that should all open in a new window.
3. Create a page with a link at the top of it that when clicked will jump all the way to the bottom of the page.
4. Create a page with a link at the bottom of it that when clicked will jump all the way to the top of the page.
5. Create a page with a link at the top of it that when clicked will jump all the way to the bottom of the page. At the bottom of the page there should be a link to jump back to the top of the page.
6. Display five different images. Skip two lines between each image. Each image should have a title.
7. Display an image that has a border of size 2, a width of 200, and a height of 200.
8. Display an image that when clicked will link to a search engine of your choice (should be opened in a new window).
9. Display an image that when clicked will link to itself and will display the image in the browser by itself.
